CERTIFICATION HISTORY

Oracle Certified Professional, Java SE 8 Programmer

Acquisition date: 17.11.2020

Oracle Certified Associate, Java SE 8 Programmer

Acquisition date: 13.05.2019

ABOUT ME

Responsible, attentive, insistent, have an ability to stay calm in stressful situations. Willing to learn something new and always make myself a better professional. Curious and have an ability to dive deeper into the problem. Fast learning (new framework on the project? Pass me the documentation, in a couple of days we'll start using it). Confidently use documentation, manuals, Google search and any other sources of information that can help solve the task. Knows the difference between "works on my computer" and "works in production". Open to communications and kind. Cool-headedness in critical situations. Developed skill of designing your thoughts (results of work, conclusions) in writing in business correspondence. The desire to learn something new all the time.
